SELECTED LEADERSHIP EXPERIENCE

Vape-Jet - Director of Operations

2025-Present

Cannabis technology | Software-enabled robotics and machine vision

- Lead AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry, and AI-assisted workflows.
- Connect factory, field, customer, and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training, and accountability.
- Work across a software-enabled robotics environment with approximately 1,000 fielded robots informing support and operating feedback loops.

Amazon - Operations Management / Site Leader

2014-2018

24/7 customer-backward operations | Launch and scale

- Led launch and execution for Amazon Prime Pittsburgh in an environment supporting approximately five million second-day orders annually.
- Built leadership routines, labor planning, throughput visibility, escalation paths, standard work, and operating mechanisms across safety, quality, customer experience, and team engagement.
- Served on the Amazon Prime Now launch team with Whole Foods and contributed to logistics innovation through Prime Air research and Amazon Flex geolocation concepts.

Compunetics - Director of Operations and Engineering Management

2000-2013

Advanced electronics | High-reliability manufacturing and engineering

- Progressed through R&D program management, production management, strategic acquisition, operations management, and director-level leadership.
- Led engineering, manufacturing, quality, customer delivery, and complex technical programs while building quality systems, root-cause practices, performance measures, and process controls.
- Collaborated with high-consequence customers and partners including DoD, CERN, Intel, and AMD; published industry articles and delivered technical talks.

CHIEF OF STAFF CONTRIBUTION PATTERN

Make priorities inspectable Connect outcome, owner, dependencies, evidence, decision, and closure.	Turn cadence into decisions Focus executive forums on tradeoffs, exceptions, and accountable action.
Translate across functions Connect technical, operating, customer, commercial, and governance perspectives.	Protect ownership Coordinate the system without becoming the default owner of the work.
